

Wallisdean Stay Safe Online Newsletter Spring 2023

SAFER INTERNET DAY SPECIAL

This term across the Wallisdean Federation, special events took place for this year's Safer Internet Day.

Safer Internet Day is a chance to think about any worries we might have about using technology and the internet, but it's also about celebrating all the fantastic things technology can help us with.

The theme this year was: **Want to talk about it? Making space for conversations about life online.** For this special event, parents and carers were invited in to work with their children in class. There were a variety of activities to work through, all which encouraged conversations about life online. Children whose grown-ups were not able to come in, worked with a partner on the same activities.

The Internet Interview was a popular activity across the federation; it was a great prompt for children to discuss their online worlds with their grown ups and encouraged those all important conversations.

Parents and carers were introduced to the Internet Matters Family Digital Toolkit. By answering a few simple questions about your child's digital habits, you get a **free personalised toolkit**, pack full of useful information in the form of written guides and articles as well as short videos. Create yours today by visiting:

Thank You!

Thank you to all of the parents and carers who came along to one of our Safer Internet Day events across the federation.

Your support was hugely appreciated and we hope the conversations about life online will continue.
