

Wallisdean Infant School 2024
Year 1: Summer year
Who would live in a habitat like this?

Art

We will be describing what we think or feel about our own and others' work. We will be developing ideas and mastering techniques through designing and making our own masks and t-shirts based on the theme of animals. We will research artwork by the artist Rafael Gomez-Barros to inspire us!

Design and Technology

We will be designing, making and evaluating large Modroc animals. Look out for them around our school grounds once they're finished!

English

We will be reading the book 'Tidy' by Emily Gravett. We will be developing our sentence writing by using adjectives and will be retelling the story as part of our journey

Outcome

Amazing Animal Carnival

All of our work will form part of our Carnival celebration.

Useful websites

You may like to explore these websites with your child to find out some interesting animal facts!

Maths

This term we will be continuing to develop our calculation skills for the four different operations: addition, subtraction, multiplication and division. We will also be learning all about length and will be practising measuring the length of objects around the classroom.

PE

In PE we will be practising Maypole dancing and will be performing our Maypole dance to our partner class.

Geography

We will focus on the changing seasons and the lengthening days. We will also learn to communicate geographically through devising and plotting a simple map around the school.

Music

Children will be singing and performing songs about Minibeasts.

Science

We will be finding out about a variety of common animals, including humans, and their habitats. We will also be looking at the structure of common flowers and trees.

Computing

We will be presenting information that we collect on a graph using the program 2graph.
